LAME EXCUSE AGAIN PUTS OVER THE LATSHAW CASE.

Defendant's Attorneys Protest Tha Injustice Is Being Done, but the Prosecutor Manages to Bodge Again.

Jackson county's remarkable prosecuto sent one of his deputies to the justice court of O. W. Krueger yesterday to plead for another continuance in the case of Ross W. Latshaw, who is under bond for attempting to bribe a venireman in the Goddard murder case, which is now on trial in the criminal court. This is the second time the state has asked for and been granted a continuance in this case, although the defendant has been in court each time with his attorney ready and apparently anxious to go to trial.

The case against Latshaw was put over the first time it came up on the plea that the docket was crowded with petit larceny and ejectment cases. Yesterday it was con-

tinued until next Wednesday afternoon in order that "Mr. Lowe might be in court and try the case himself." At least, this was the lame excuse offered by Deputy Prosecutor Brady, who draws his salary from the county for attending preliminary hearings in justice courts.

The state's witnesses were present yesterday, but it is doubtful if Deputy Brady was aware of it, for when he asked the court to grant the continuance he said that Deputy Marshal Cassimer Welch had the subpoenas for the state witnesses, and he had not had a chance to see them. He did not explain to the court why a deputy marshal should be carrying around subpoenas that properly belong to the constable of the justice court.

The witnesses for the state who were present yesterday were Clarence Boyd, the butcher, who claims to have been offered to by Latshaw to hang the Goddard jury in case he should be one of the twelve men chosen to try it, and Elmer Phipps, who is said to have heard the offer made to Boyd. They sat in the court room during the plea of Mr. Brady for a continuance, and when the case was put over they got up and left looking rather disgusted with the whole proceeding.

Soon after court had opened Deputy Prosecutor Brady arose and asked that the case against Latshaw be continued. He stated that Deputy Marshal Welch had the subpoenas for the state's witnesses, and for this reason he would like to have the case go over.

"May it please the court," said Attorney

for this reason he would like to have the case go over.

"May it please the court," said Attorney James Garner, for the defense, "the defendant is here ready to go ahead with this case. We were ready to try it when the case first came up, but the state was not ready. We are ready now. Mr. Latshaw is laboring under the grave charge made by the state; he is a business man, and we do not think it right for the state, after causing his arrest, to harass and annoy him in this manner. The state clothes the prosecutor in the full power to act, and we think this case should be tried and disposed of this afternoon. The tried and disposed of this afternoon. The state should be anxious for the facts to come out, if it is sincere; the defendant wants the facts to come out."

"The last time this case was continued,"
we did not

"The last time this case was continued," said the prosecutor's deputy, "we did not have time to try it. Mr. Lowe requested me to have this case continued to-day, as he wants to be present personally and try it when it comes up again."

Attorney Garner asked the deputy if he was not well aware that the defendant had answered ready when the case was first called. Then he added:
"But instead of trying such a serious case the state gave the preference to petit larceny cases. What we want to know is why the state is not ready to proceed

larceny cases. What we want to know is why the state is not ready to proceed with this case?" Deputy Brady replied rather weakly that he did not see why the case against Latshaw should be given preference over

any other case.
"When will you be ready to take up this

case?" asked the court of the prosecutor's representative.
"Well - we-ought - to-be-able-to-take it-up-by-Wednesday," replied the deputy, hesitatherby.

"Well - we-ought - to-be-able-to-make it-up-by-Wednesday," replied the deputy, hesitatingly.

"I would like to know," said Attorney Garner, "if this case comes up next Wednesday, whether the state will be here ready to take it up, or will you come in here and ask another continuance?"

Mr. Brady did not reply to this sharp thrust, but satisfied himself-and the prosecutor's office-by saying he did not see, really he didn't, how the case could be taken up before Wednesday. Justice Krueger continued the case until Wednesday.

"At what hour?" asked Attorney Garner.

ner.
"At 2 o'clock," answered the justice.
The defendant and his attorney then left
the court, followed a moment later by

DOES LOWE WANT IT TRIED? the state's witnesses. The deputy prosecutor remained to try inconsequential petit larceny cases, with an occasional assault

BURCHARD CASE CONTINUED. Judge Longan Evidently Thinks the Charge of Jury Tampering

Amounts to Little.

The hearing of Dr. Easton Burchard for an alleged attempt to influence a juror in the Goddard case was set for 2 o'clock yesterday afternoon in the criminal court. At that hour Dr. Burchard and his attorney, George A. Neal, were in the courtroom, but Judge Longan announced that he was too busy to attend to it, and therene was too busy to attend to it, and therefore, the hearing would be postponed in
definitely. It is likely that nothing further will be done in the matter. Dr. Burchard stands high in this community; his
accuser is Campbell Chapman, who also
bears a good reputation, but he does not
claim that Dr. Burchard attempted to
bribe him; he simply says that Dr. Burchard started a conversation with him in
which he talked favorably of Dr. Goddard. Dr. Burchard denies positively the
statement of Chapman.

LOTTERY TICKETS DESTROYED. Kansas City Customs Officials Kept Busy Suppressing Tickets of a

German Concern.

The customs officials of the West are being kept busy at present seizing the numerous packages of lottery circulars and tickets that are being sent by the thous-

erous packages of lottery circulars and tickets that are being sent by the thousands all over the country from the "Free City of Hamburg" lottery at Berlin, Germany. They have been coming slowly for the past two weeks, but during the last few days the number reported has very largely increased. Several packages were seized at the postoffice here yesterday and some others are held there now, that will be seized when the addressees call for them. When the packages reach the office in New York they are stamped with a huge red stamp, "supposed to contain lottery mail." When the package or letter reaches its destination the postmaster must hold it and notify the person to whom it is addressed. When he presents himself the package is taken to the customs officials and by them opened and the contents examined. If the matter is concerning a lottery the package is selzed and held by the department. If it is dutiable duty is collected and if it is all right it is delivered. Notices are being sent constantly from New York to look out for that sort of mail, as it is arriving in enormous quantities by every steamer from German ports. The government has the postal department and customs service work in harmony for the suppression of the matter and will make extra efforts to see that none of it is delivered. extra efforts to see that none of it is delivered.

Some of the packages seized contain tickets, as the parties have evidently remitted
money for the payment of the chances.
Others contain circulars setting forth the
many great opportunities to make a fortune at a jump by the payment of a dollar.
In trying to shut down on all of the lotterles the government shows much energy. It
has stopped all American lotteries and has
shut the Mexican concern out of the malis
and express service of the country. It will
now give its attention to the suppression
of the German lottery as far as stopping
its mail can accomplish that purpose. Postmaster General Gary has issued a circular
letter of instruction which he has sent to
all postmasters and customs officers, defining their duty in the premises.

"SUBS" ARE HAPPY.

Men Who Have Been Waiting Long for Jobs as Letter Carriers Will Be Put to Work.

The announcement in The Journal yesterday that seven carriers would be added to the force of the Kansas City office, was read with pleasure by the men who have Seen doing duty as substitute carriers. There are just a dozen "subs" now and they had begun to weary of promotion. they had begun to weary of promotion. Four of them have been "subs" for over four years and others have a year or two to their credit. They are all competent and familiar with the work. The seven oldest in service will be chosen and seven from the eligible list will be moved up to the substitute list. A. E. Anderson, of the eligible list, was put on the list of "subs" yesterday.

The official order to increase the force is expected to reach the office to-day.

REDUCING CITY EXPENSES.

Conference of Officials to Bring About

An extended executive session of the joint financial committees of the council was held in the private office of Comptroller Land vesterday afternoon. The committee had Comptroller Lund and members of the board of public works before them for some time. While nothing was given out touching the proceedings, it is known that the financial condition of the city was the the financial condition of the city was the subject discussed. The bills of the water works department for November were sent for and fully gone over. The expenditures in this department, while unusually large, were anticipated, owing to the improvements now in progress. The sum total of the bills for this department will approximate \$55,000. The joint meeting of yesterday was largely to confer with the officials named with a view to the curtailment of expenditures as much as possible.

LIGHTS AT CROSSINGS.

Railroad Companies Must Conform to the Requirements of City Ordinances.

The gas committee of the lower house met yesterday afternoon and considered the pending ordinances to require the Misscuri Pacific and the Kansas City Belt line railways to maintain electric street lights at certain crossings. No report has been filed as yet. The ordinances are in line with recent similar action on the part of the common council with reference to other railway lines.

AFTER THE PROPERTY OWNERS

Sidewalks in Westport District Musi Be Repaired to Lessen Possibility of Damage Suits.

The board of public works is exerting every precaution to keep down damage suits in the Westport limits. Steps have been taken looking to the immediate in spection of all sidewalks and streets in that locality with a view to immediately forc-ing property owners to put them in a thor-ough state of repair.

TO BUY NEW PUMP ENDS.

Board of Public Works Will Make Improvements at Turkey Creek Pumping Station.

The board of public works yesterday adopted the report of Superintendent Longwell, Engineers Kiersted and Chap-man recommending the purchase of new pump ends for the old Gaskill engines at the Turkey creek station. The estimated cost of this improvement is from \$9,000 to \$10,000. Owing to the increased amount of work in the city engineer's office caused by the annexation of Westport, Mr. South-well, formerly an assistant in the office of the city engineer at Westport, was en-gaged as a draughtsman.

AT THEIR OWN EXPENSE.

The People of Westport District Must Make Immediate Connection

With the Water Mains. The board of public works has ruled that the people of Westport must connect with the water mains of the city and at their individual expense by January 1. The cost of such a connection is from \$5 to \$10. Many of the people of Westport have in the past got their water supply by means of small wroughtiron mains, which fre-quently burst, entailing considerable ex-pense. This ruling affects some 190 West-port residents at present.

Told of the Siege of Vicksburg. The ex-Confederate Veterans' Association held a literary session at Thirteenth and Grand avenue last night. There was a large attendance of veterans and their families. Colonel James E. Payne read a paper on the "Siege of Vicksburg," in which he gave a graphic description of many incidents which have never found their way into histories. After the paper a musical programme was given by members of the association.

HOLIDAY GIFTS! CENTRAL MARKET

GRAND OPENING OF CHRISTMAS NOVELTIES IN TOYS, GAMES, DOLLS, BOOKS, ETC...

To-Day, Saturday
